Inlet Grove is Accredited by the Accrediting Commission on Secondary and Middle Schools of the Southern Association of Colleges and Schools

PURPOSE

All programs at Inlet Grove Community High School are designed to provide students with a college-ready high school diploma and preparation for state or nationally recognized industry certification in a high-skill career area. This enables the student to have college and career options upon graduation from high school.

DESCRIPTION

Inlet Grove is a 650-student career academy public charter high school that employs a mastery learning model based on state and national standards. This

model promotes success for all students through traditional and computer-based instruction. In keeping with the High Schools That Work philosophy, Inlet Grove Community High School has designed a challenging curriculum. To ensure a high level of performance, students are encouraged to achieve at least a "B" in all subjects. The instructional

delivery system allows each student additional time, if needed, to achieve this level of mastery. For students who accelerate their learning, dual enrollment opportunities with the community college enable them to earn college credit while still in high school. This model fosters academic and career skill mastery. It also provides students with the potential to earn Florida Bright Futures scholarships, which could pay up to 100% of tuition and most fees at all state universities and community colleges.
