

Good morning Mrs. Pientka,

It is my and my husband pleasure to leave a positive feedback about Inlet Grove Community High.

Thanks to the teachers and the staff of Inlet Grove, our son Daniel Strickland has grown up so much academically and as a young man since he started 9th grade this school year. I believe that giving him an opportunity to skip 8th grade was the best decision for him. The beginning of the school year was a challenge for him. Especially for a boy coming from a very small school and who was afraid of changes. But having your support and the support of other students who went through the same experience helped the transition and made him feel acclimated in no time. All this and more proved your dedication and commitment to your students.

He truly enjoys the teachers and his classmates. As a matter of fact, we were considering moving him next school year to the high school near our house for transportation reasons, but he refused to do so. He said likes his school and that tells us a lot.

Once again, we want to thank you, your entire staff and the outstanding teachers for making a positive overall impact not only in my son's life but also the rest of the students.

With much gratitude,

Nathalie & Brett Strickland
